# Welcome to graphical-budget-planner !

It seems you are using this application for the first time, since one cannot detect any configuration file already installed. We hope you will enjoy the experience !

Getting Help

=> Use the "**tooltips**" available everywhere in the application. Just move the mouse over a button or a control and a small window will appear giving a brief description. This feature can be turned off in the Options.

=> Use the "Help menu" to rapidly get access to :
- **Quick tutorial** : In 10 minutes, get a good idea of what GBP does
- **User Manual** : Explore the fine details of GBP in this fully detailed PDF document
- **List of changes** : See what's new for each version of GBP

Getting the source code or the binary

GBP is free & open-source software. Visit GBP web site at :

Sending feedback

To contact the author(s) of this software, you do it via Codeberg or directly by email (redmoon1945@protonmail.com). On Codeberg, use the "issue tracker". This way, the owner and other collaborators can discuss and resolve the issue or answer your question. To create an issue, navigate to the repository's issue tracker, click "New Issue", and fill in the required information. https://codeberg.org/claude_dumas/gbp/issues
